# **OJAI VALLEY CHAMBER OF COMMERCE PRESENTS: FUTURE READY OJAI**

A TECHNOLOGY FORUM FOR LOCAL LEADERS

OJAI, CA –With the first of many planned discussion forums about how Ojai can embrace the latest developments in technology without compromising its identity, the Ojai Valley Chamber of Commerce is excited to introduce the valley's newest technology innovator Netrun Systems.

"Future Ready Ojai," will engage local thought leaders and community visionaries in fresh dialogue and idea exchange related to the future of technology in Ojai Valley and beyond.

Netrun CEO Daniel Garza stated, "We're not looking to disrupt Ojai, but energize it. We want to show people how technology can be used like a tuning fork, resonating with the soul of the valley while simplifying work and play in a kinder, more elevated version of connectedness."

Garza continued, "Being rooted in Ojai, we are thrilled to offer new tools and inventive systems to our neighbors that will ultimately improve everyone's quality of life as we step thoughtfully into an emerging paradigm."

Steve Wagner, owner of Integrity Wealth Management said that "having several local business owners as our own clients, we recognize how this event will help with day-to-day management challenges. We are pleased to host the first of these events."

*Guests who RSVP will receive a complimentary marketing evaluation of their business from Netrun systems.*

**INTEGRITY WEALTH MANAGEMENT / 206 SIGNAL STREET  
TUESDAY, JULY 22 / 4:30 TO 6 PM**
